

October Update:

House Bills 5056 and 5057 were introduced last week by Representative Phil Phelps.

Attached are copies of the Bills: [5056](#) and [5057](#)

They have been referred to the House Committee on Local Government.

This Committee Chairman is Representative James Lower of the 70th District. The Majority Vice Chair is Representative Kathy Crawford of the 38th District and the Minority Vice-Chair is Representative Patrick Green of the 28th District. There are 8 additional Representative on the Committee.

None of these members are on the House Tourism and Outdoor Recreation Committee, so I don't know them.

Next steps are for the Committee to referrer the Bills to the Full House and then the Senate will take them up.

It is important to understand that if/when these Bills become law, Flint Township, or for that matter any Township, is under no obligation to do anything. This simply outlines the process to change a township's name if that is what the township wants to do...
